## Job Description – Field Laborer

### Job Responsibilities:

- Perform various physical duties as assigned
- Maintain a commitment to health and safety
- Move, secure, install, build, load, or unload materials
- Move tools, equipment, or other material as directed in plans or by supervisor
- Perform some specialized tasks which may require on-the job training. Depending on the specific project, this may include:
  - Collection of rock and soil samples for geochemical analysis
  - Relocation and organization of geologic samples, drill core, supplies or equipment
- Ancillary duties as requested by the owner or the acting Project Manager as needed

### Qualifications/Skills:

- Attentive to detail and alert at all times to ensure safety
- Able to receive and follow instructions and communicate with co-workers
- Ability to meet the physical demands of the job (standing for long periods of time, lifting heavy loads of up to 50 pounds, working outdoors in all weather conditions, traversing uneven rugged terrain, etc.)
- Ability to operate heavy equipment such as forklifts, skid steers, zoom-booms, telehandlers, and loaders
- Ability to travel to and live in primitive remote work sites for up to 6 weeks

### Education, Experience, and Licensing Requirements:

- High school diploma or equivalent; higher education is an asset
- Valid driver's license
- Ability to safely operate various vehicles and equipment in off-road environments
- Experience in exploratory geology, mining, or rock/soil sampling is an asset, but not necessary
- Experience in mountaineering and/or rock climbing is an asset, but not necessary

### Compensation:

DOE
